BPIE Workshop
Building Renovation
Passports

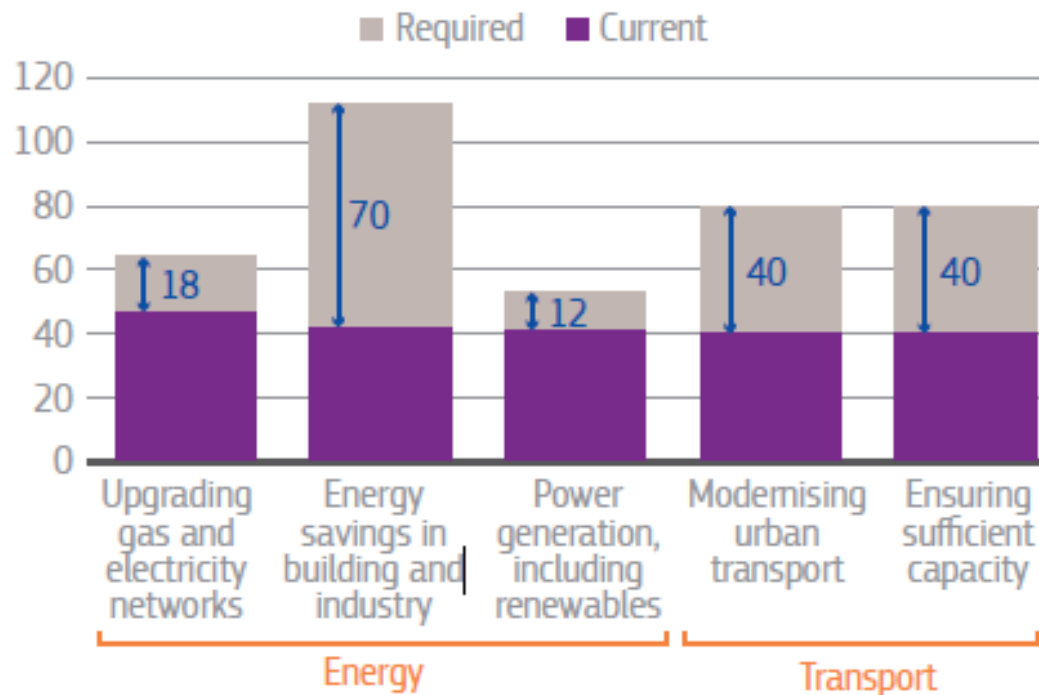

8 October 2018, Brussels

Building renovation has to do more

Financing has a more important role to play

Billion euro

European Commission

Digital/ICT has a big potential to contribute

SUPPORT FOR SETTING UP A SMART READINESS INDICATOR FOR BUILDINGS AND RELATED IMPACT ASSESSMENT FINAL REPORT

VITO: Stijn Verbeke, Yixiao Ma, Paul Van Tichelen, Sarah Bogaert, Virginia Gómez Oñate
Waide Strategic Efficiency: Paul Waide
ECOFYS: Kjell Bettgenhäuser, John Ashok, Andreas Hermelink, Markus Offermann, Jan Groezinger
OFFIS: Mathias Uslar, Judith Schulte

Study accomplished under the authority of the European Commission DG Energy
2017/SEB/R/1610684
Date: 26 August 2018

Energy

The right toolbox

Energy saving obligation schemes

Energy Performance Certificates, linking to financial support

Reinforced national long term renovation strategies

Some challenges

Identifying best practices, including on how best to integrate building renovation passports into long term renovation strategies

Complementary of building renovation passports with other tools, including Energy Performance Certificates: their minimum quality standards to go hand in hand

Holistic approach to the built environment, beyond the individual building- integration of the building and the district/neighbourhood/urban context

Wider vision addressing environmental impacts and building sustainability

Thank you!
